

## P R E F A C E

*The publication, **District at a Glance**” for the year 2013-14 is an annual publication of the department. The issue has been prepared with a view to provide important indicators/data of the District to the users/Scholars/planners.*

*I take the opportunity to express my heartfelt gratitude for the cooperation extended by the different Departments for providing the necessary inputs /requisite data and hope to get their continued support in future also. I also appreciate the sincere efforts put in by the officials of this agency particularly Sh. Ravi Kumar Statistical Officer in bringing out this publication. Suggestion for improvement of future issue of this publication shall be welcomed.*

**Subash Chander (Dy. Director, P&S)**  
**District Sts. & Evl. Officer,**  
**Kishtwar**

## INTRODUCTION

Kishtwar the land of saffron and sapphire was an independent hilly state during the medieval period. Maharaja Gulab Singh, the Dogra ruler of Jammu annexed it in 1821 AD. District Kishtwar was carved out from the erstwhile District Doda during the year 2007-08. The Kishtwar District is spread over a large area ranging from the border of Himachal Pradesh on south, Ladakh on east, Kashmir valley (District Anantnag) on north-west & Doda on the west. The erstwhile District Doda comprised of an area of 11691 Sq. Kms. out of which earlier Sub-Division Kishtwar and now District Kishtwar has an area of 7737 Sq.Km.

The Plateau of Kishtwar is 5300 feet or 1631 meters above sea level. It lies between 75 -25” East longitude & 34 -10” North latitude. Kishtwar town is 234 kilometer from Jammu & 280 kilometers from Srinagar.

### Geology:

Geologically District Kishtwar is rich, but the mineral resources have not been fully explored and exploited. Sumcham area of Padder Tehsil is known for Sapphire, a precious mineral. Nagseni and Padder blocks are rich in Lead and Shilajit (Bitumen).

### Climate & Rainfall:

The rainfall is scanty, Climate is generally dry and because of this reason the District has been declared as Drought Prone Area. The temperature of the District varies from place to place. Most of the areas of Tehsil Padder & Marwah remain snow bound for five-six months of the year. In fact Block Warwan and Marwah besides some of areas of Dachhan and Padder remain cut off from the rest of the world during winter. Summer hardly witnesses any rain and precipitation often occurs during the winter season.
